

# Acceptance Letter

Date: 2024-06-20

Dear **Shangyi Yang, Hongbo Su, Bo Wan, Heng Lu, Zixuan Wang, Xiaoling Yang, Yujie Song**

I am happy to inform you that on the recommendations of the referees, your paper titled "**Research on the scheduling of heliostat fields in tower solar power plants based on optical efficiency calculation model**" has been accepted for publication in International Conference on Electronics, Computer Science and Technology (ICECST2024).

Paper ID: **ICECST24698**

Sincerely,

*International Conference on Electronics, Computer Science and Technology (ICECST2024)*

All articles in these proceedings will be submitted for indexation in EI. 2024 International Conference on Electronics, Computer Science and Technology (ICECST2024) aim is to bring researchers, engineers and industrial players from around the world together on a common platform to share their experiences, new ideas and research results in all aspects of Electronics, Computer Science and Technology. The conference provides an international forum for sharing ideas, discussing research results and presenting theoretical and practical applications in these areas. Current global scientific focus, trends in electronics and communications engineering, interdisciplinary research and engineering activities are expressed at this conference. Authors are invited to contribute to the conference by submitting articles that illustrate research results, projects, experimental work, and industrial experience that describe significant advances in the field of research.
